

HEALTH CARE / ACCIDENT INSURANCE

The University of Vic – Central University of Catalonia does not require proof of insurance (with some exceptions) but we strongly recommend that international students and staff take out adequate cover.

Health insurance plans offer financial cover for medical expenses when the policy holder is hospitalised. A health insurance plan should confer a variety of benefits, such as free hospitalisation, day-care facilities and reimbursement of expenses incurred.

Based on our expertise in welcoming foreign students and staff, we recommend that before arrival at UVic-UCC all our international exchange students and staff take out comprehensive insurance with worldwide cover for every conceivable risk during the time spent abroad.

We suggest that you opt for a package that goes beyond mere travel insurance, including items such as the following:

- Medical insurance, without deductions or co-payment: Emergency medical treatment and hospitalisation
- Diagnostic tests
- Accident and disability protection
- Emergency cover for evacuation and repatriation
- Dental care
- Personal liability
- Emergency 24/7 multilingual help line
- Online administration
- Legal assistance
- Worldwide cover

Under my full responsibility, in submitting an exchange mobility application to UVic-UCC, I hereby confirm that I have read and understood the above explanation and recommendation.
